

Social Side of City Life

PERSONALS, MEETINGS, CLUB ACTIVITIES,
WEDDINGS AND SOCIAL EVENTS

Mrs. Brew is receiving the ladies of the Industrial Congress, and the officers and delegates of the Grand Chapter of the Order of the Eastern Star, this afternoon from four to six at Government House.

Mr. Samuel Blair, worthy Grand Secretary of the Grand Chapter of the Order of the Eastern Star, has received himself into an automobile for his home in Calgary. His hair is remaining over for a short time.

Mrs. G. McDonald, 3711 Avenue, left Thursday morning for Gander, N.B., where she will visit her mother, Mrs. McDonald, and Mrs. Crawford. She was accompanied by her two children, Margaret and George.

The Women's Institute is arranging a concert to be held in the Grand Theatre on Monday night, June 14th.

Mr. D. D. DePaul, of Windsor, Ont., is spending a couple of weeks in the city, the guest of his brother, Mr. William DePaul, of the Bulletin staff, who will accompany him to the city.

A traveling by Prince Rupert and the west coast, for a three months stay, before returning to his home in the east.

Mr. W. Harris, of Calgary, is at the city.

The Daily Poem

THE FIRST SCHOOL DAY
A scholar, when he starts to school,
His mind is full of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

And when he enters his classroom,
He finds a world of things he's told,
And when he enters his classroom,
He finds a world of things he's told.

Women's Meetings

Announcements of women's meetings must be sent to the Bulletin by June 4, 1920.

Friendship Club at St. Paul's.
The monthly meeting of the Friendship Club at St. Paul's church will be held on Friday evening, June 4th, at the home of Mrs. M. J. McQueen, 1211-10th Avenue. The club will take place at this meeting as all members are asked to be present if possible.

Senior Girls at St. Paul's.
The senior girls of St. Paul's church will hold their annual bazaar in the school room on Friday evening, June 4th, commencing at 7:30 p.m.

Westminster W. A.
The regular monthly meeting of the Westminster W. A. will be held in the church parlor Friday afternoon at 3 p.m.

Fashion Hints

LAVETTE'S SUGGESTIONS

Perhaps there is no more interesting and fascinating work of the day than the fashioning of a lavette, which in these times is made in the home more than ever before. The lavette is a small, square, or rectangular piece of material, usually of a light color, which is used to hold a button or a small ornament in place. It is made by sewing a small piece of material to the back of the button or ornament, and then sewing the other end of the material to the fabric of the garment. The lavette is a very useful and attractive addition to any garment, and it is a good idea to make a few of them for your own use.

Of course the lavette is not the only thing that can be made in the home. There are many other things that can be made, and they are all very useful and attractive. For example, you can make a small bag or pouch, or a small case for your keys. You can also make a small cushion or pillow, or a small blanket or rug. The possibilities are endless, and it is a good idea to make a few of these things for your own use.

Another thing that can be made in the home is a small piece of furniture. For example, you can make a small table or a small chair, or a small bench. These things are all very useful and attractive, and they are a good idea to make a few of them for your own use.

Finally, you can make a small piece of clothing. For example, you can make a small hat or a small scarf, or a small pair of gloves. These things are all very useful and attractive, and they are a good idea to make a few of them for your own use.

So, if you are looking for a good idea for a small project, look no further than the lavette. It is a simple, easy, and attractive project that can be made in the home, and it is a good idea to make a few of them for your own use.

Another thing that can be made in the home is a small piece of furniture. For example, you can make a small table or a small chair, or a small bench. These things are all very useful and attractive, and they are a good idea to make a few of them for your own use.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada

and a Valenciennes aging one inch side will make an attractive finish. Fold the lace next to you in sewing and it will naturally "fall" a little, enough to look well anyway. Father stitching, always making short stitches, makes a lovely finish for a seam on a flannel petticoat. A white petticoat is a lovely thing to have.

Narrow strips of lace insertion, all made with strips of the dress material make pretty yokes, and groups (three in a group), of tiny hemstitch ed tucks, set in lengthwise are also pretty and attractive. If the material and workmanship are what they should be, the clothes will be daily prettier.

While on the subject of flannel, a good idea is to make a flannel petticoat. Buy one or two one-half yard pieces of flannel, and cut them into strips, and baste it together across the two narrow ends. Then, making a small hemstitch, crocheted, or buttoned, with a not too heavy yarn. Finish each side of the top edge with a small hemstitch. Have a piece of white cloth or flannel, and cut it into strips, and baste it together across the two narrow ends. Then, making a small hemstitch, crocheted, or buttoned, with a not too heavy yarn. Finish each side of the top edge with a small hemstitch.

Thursday's morning session of the given by the Edmonton Chapter to compliment the visiting Grand Officers and delegates. Later all reported to the lecture room where the proceedings and installation followed. Mrs. Beaulieu presided, and thanks to the Edmonton Chapter for courtesies extended, and the very

SPORT IN ENGLAND --- A CANADIAN BEAUTYLAND

- (1) The English Rugby Football Team that defeated the Scottish Team.
- (2) The Scottish Team, taken just before the game.
- (3) Portion of the great crowd watching the Rugby match between England and Scotland.
- (4) Queen Alexandra unveiling the Nurse Cavell Memorial in London.
- (5) The Prince of Wales on the "Renown," en route for Australia.
- (6) England defeats Scotland, 13 to 4. A rough scrimmage in the Rugby game.
- (7) Grand Military Steeplechases, Sandown Park, at which King George was a spectator.
- (8) Launching H. M. S. "Frobisher" at Devonport. The first public launching since the war.
- (9) 1,200,000 mackerel caught in one night off Mounts Bay, Cornwall, Eng.

SUMMER CAMP FOR LAKE WINDERMERE

A rustic cabin camp will be established this summer on the shore of Lake Windermere, which should help to popularize one of the most beautiful districts in British Columbia. From the site of the Camp, roads and trails radiate to the Chaynos formed by the creeks, which in turn are fed from the icefields capping the surrounding mountains. From this centre it will be comparatively easy to visit the spectacular Horse Thief Glacier with its great ice cave, and the still more spectacular Lake of the Hanging Glaciers, where five great ice rivers meet into one marvelous lake.

Between the main line of the Rockies and the subalpine, but equally spectacular Selkirk Range lies a long and beautiful Valley traversed by two rivers, the Columbia and the Kootenay, which eventually after curious turns and twists unite their streams far to the south. In this Valley half way between Golden on the main line of the Canadian Pacific Railway and Cranbrook on the Crow's Nest Branch lies Lake Windermere, a warm water lake over ten miles in length and from one to three miles in breadth. The lake is surrounded by bench land, much of which has recently been transformed into good farm land; behind the benches are the foothills and then the towering, jagged mountains typical of this region. Through a gap such as that of Horse Thief Creek one sees the peaks capped by eternal snow, and with the aid of auto and pony one can drive and ride on the snow-capped peaks of the Selkirk Range. Behind the lake into the surrounding mountains are creeks which have carved out canyons for themselves through rocky precipices, and along these canyons are mountain roads and trails made to the silver and lead mines of the Selkirk or for the hunter and tourist over the passes of the Rockies. Two interesting hot springs are within easy access. Fairmont to the south, and Hot Springs in the Selkirk Canyon, to the north. At the Selkirk Hot Springs a concrete swimming bath has been built which attracts many visitors in the summer season on account of the curative properties of the water.

The peninsula on which Lake Windermere Camp has been located has already a well established silver mine golf course, and owing to its pleasant terraces of sandy soil is available for riding the trails, and the neighboring village of Invermere has a garage with a fleet of automobiles

Rustic Cabin Camp being built to open up a new tourist resort in the Canadian Rockies at Lake Windermere, B.C.

For the excellent roads of the Valley. In several of the creeks and smaller lakes within easy reach good trout fishing in season may be had. The water of Lake Windermere itself is too warm for trout, though it contains countless spawn fish, many of large size.

Among the many expeditions easy to accomplish are those up Horse Thief Creek. Nine miles up the spectacular bridge three hundred feet above the bed of the stream, uniting roads on either side so that a highly interesting round trip ride of sixteen miles can be made from Lake Windermere Camp. Beyond the bridge the road leads in the direction of Earl Grey or Wells Pass to Kootenay Lake with the well known silver-lead Paradise Mine at an elevation of 8,000 feet on the right.

Very interesting are the Hot Springs at Fairmont, bubbling up on a rocky terrace in an amphitheatre of mountains. South west of Lake Windermere, the road to Fairmont passes through an Indian Reserve

consisting of prosperous farms. For bathing and boating, the waters of Lake Windermere are ideal. The summer temperature averages about 65° and the water is crystal clear. There are several islands in the lake, each tempting the explorer. The Columbia River is full of charm, winding through a mass of forest at the base of the mountains.

The fishing in the lakes and streams is best in Spring or early Summer or in the Fall. The surface water of the lakes is apt to be too warm in July for fly fishing, and the streams are muddy with melting snow. In season, however, there is excellent trout fishing for instance at Fish Lakes or in Dutch Creek while Premier Lake in the south is remarkable for landlocked salmon which have been caught up to 100 pounds in weight.

Lake Windermere Camp is on the shore of a promontory which has a four year old golf club, the course of which is available for visitors to the Camp.

When School Is Over

Those any profession impose a greater strain upon its members than any other. A vacation is essential—it is necessary to restore the physical system and to refresh the mind. But the questions are: "Where to go?" and "When can you start?"

The far-off places of the world are not easily accessible at present, nor do they offer anything much better than the nearer ones. The best are to be found in our own Canada. Make your vacation trip of educational value. Visit the Canadian Rockies and the Pacific Coast. Let that beautiful and historic "Great See the Grand Trunk Pacific" make out an itinerary for you. "Out and About" is a booklet that shows the waters of the North Pacific Coast and the Inside Passage. It is available at all information on application to J. P. Phillips, Vancouver Agent 19466 Jasper Highway, Vancouver 4557.

NOTICE

⁷⁰GEORGE ELLIOTT and
JAY ELLIOTT

1. **Emergency meeting in the City of Edmonton, Alberta.**

PARK NOTICE that by an order made by the Council of the City of Edmonton, Alberta, and the City of Calgary, Alberta, on the 25th day of November, 1936, the following is hereby notified:

That the City of Edmonton, Alberta, and the City of Calgary, Alberta, have agreed to purchase the land described in the following description:

Section 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818,

**FREE PANTS
SATURDAY**

Here is a bonafide gift for you. Every customer tomorrow gets an extra pair of trousers absolutely free, same cloth as suiting, doubling the value, your last chance for tomorrow only to introduce my new "buy your pants" by the yard policy—Join the winners against high clothing prices.

Investigate my new plan, go elsewhere and see if you can get a suit or coat made by any tailor reputable or otherwise for the price I ask. Investigate, see if you can buy violens elsewhere for the same price I ask.

Take "ADVANTAGE," your last chance.

SUIT OR OVERCOAT

\$18.50
PLUS-THE-CLOTH

Here is How it Works

3 Yards Suiting at \$2.00	\$6.00
Tailoring	18 50

Don't forget that this price includes an extra pair of made-to-your-measure **FREE** pants, tomorrow only

CONFIDENTIAL

This you have already shown me by helping me break the clothing combine, your support last Saturday which was my opening day, is proof that my new selling policy is a SUCCESS.

Since then, letters and requests for another day of it have been pouring into the office. Fully realizing the keen disappointment occasioned to our customers, we have decided to continue the offering again tomorrow, we desire, however, to state that this is **POSITIVELY** the last opportunity this season to secure an extra pair of pants "FREE" with the suit you order, we therefore advise you to take full advantage of this offering and leave your order early before the crowds assemble.

One day only SATURDAY.
Yours,
VINCE ZACZKOWSKI.

Saturday Only FREE PANTS Saturday Only

BUILD UPON PROSPERITY

A top of every man's ambition and aspirations is the desire to own property—to construct buildings as a monument of his success, enterprise and thrift. Beyond these sentimental incentives there has now developed a still greater inducement—a more practical impulse—the promise of profit—the investment protection of a community's absolute need. This growing town has expanded beyond its pre-war facilities for factories, stores, office buildings, homes, apartment houses, garages, and buildings of all sorts. The men who supply these are meeting a real demand and demand insures a safety of investment. You men of money, now is the time to serve your community with the added and substantial compensation of serving yourself.

Western Production Eastern Industry

IN all the West there is a race between achievement and opportunity. Achievement has made great speed in Edmonton, but opportunity is still far in the lead.

The blanket of black soil that for twelve hundred miles overlies the plains from the Red River to the Peace is the greatest gold mine on earth, because it produces grasses and wheat. Like other gold mines it may not pay the man who works it. But if it is worked the world lives and thrives. Wheat is gold today as it never was before; and so are beef and butter. Labor and energy and courage and suffering have increased the wheat production of the prairie west from not one bushel in 1874 to 300 million bushels in 1915. Opportunity remains to double, treble or quadruple that production. Canada's future is on her great plains, in the production of wealth and in the building of the nation. Our visitors are asked to see things as they are and to judge from that what possibilities the future holds. We have made a start; a good start; but only a start. The opportunity of the future is greater than the achievement of the past.

We ask you to share our confidence in our common country.

Edmonton, the commercial and industrial capital of the farthest North West receives and entertains today representatives of the industrial activities of the far East

ALBERTA COAL

"NO BETTER COAL MINED"

COAL CONSUMERS IN ALBERTA, SASKATCHEWAN, MANITOBA

WHY send 2,000 miles to Pennsylvania for your COAL, when the **BEST DOMESTIC COAL IN THE WORLD** is being mined by the Alberta Coal Co., Ltd., and can be shipped direct, without the danger of delays caused by freight blockades and with the certainty of your receiving a uniform grade of Coal? This Coal is of **THE BEST QUALITY**, produces **GREAT HEAT PER TON**, with **LITTLE WASTE** and is in every way **AS SATISFACTORY** as the imported product. At the same time by using it you will be **CONSERVING THE SUPPLY IN THE EAST**, where it is primarily needed to carry on industries and thus assist the fuel controllers of Canada and the United States. You will also be helping to develop a **WESTERN CANADIAN INDUSTRY** and with it this Western Country, upon which our future welfare depends.

Housekeepers

Find that the coal supplied by The Great Northern Coal Co., Ltd. is **BETTER THAN ANTHRACITE**.

It is unexcelled for Domestic Heating and Cooking Purposes. It burns to a clean ash, with a minimum of soot and smoke, and no Clinkers.

For **USE IN THE HOME** there is none better or more satisfactory, and, therefore, no **CHEAPER** coal in the world.

Stationary Boilers

Find in this product **A PERFECT STEAM COAL**, giving entire satisfaction wherever employed.

High Heat Giving Qualities

The average of some 30 careful test-analyses, conducted by the experts of institutions so far apart as McGill University and the University of Alberta, of the product of the Alberta Coal Co.'s mines, is as follows:

MOISTURE	11.14 per Cent.
ASH	2.98 per Cent.
VOLATILE MATTER	37.26 per Cent.
CARBON	43.62 per Cent.
HEATING POWER	9771 B.T.U.

The number of Thermal Units per ton varies, naturally, according to the sample analyzed, and the quantity of carbon and heat-producing elements present. The results run from 7,500 to 10,000 B.T.U. The figure given above is a dependable average, and ranks very high in comparison with other coals. In fact, it is only in exceptional cases that it is equalled.

An Up-to-Date Mine

The Alberta Coal Co.'s mine is located 20 miles north of the City of Edmonton, on the Canadian Northern Railway. It has been in operation since 1908, and was opened and developed by the present company, which was organized in 1907. The product is exclusively handled by the Great Northern Coal Co., Ltd., of Edmonton.

The mine is fully equipped with up-to-date machinery and handling apparatus, including wire rope haulage, box-car loader, all possible safety devices for the protection of the workers, and proper means for removing and excluding refuse, dirt and inferior coal from the shipped product. This insures uniformity of quality to the consumer—an important matter. A ton of Alberta Coal Co.'s coal is as good as any other ton. There is no lottery about it. You do not get a splendid, free burning lot one time, and a load of inferior sort the next time.

The mine is 50 feet deep, and the seam is from nine to fifteen feet in thickness. In the workings at present it is about 10 feet thick. The capacity of the mine is 500 tons in eight hours, on three loading tracks. There is never the least danger of a shortage in supply.

Please keep in mind—it is greatly to your own advantage to order your coal supply **EARLY**. Cars are plentiful—we can ship promptly. The price is **RIGHT NOW**, the fall may bring an increase.

Coal ordered now—properly stored—does not deteriorate.

EARLY ORDERS BENEFIT US BOTH.

Keep Your Money at Home

Why send your money to a foreign country for coal, when you can get better and cheaper coal in Alberta, and keep Canadian money in circulation in Canada? When you buy American coal, your money goes into the pockets of American labor and capital. When you buy Alberta coal, your money helps build up Canadian industries.

For 15 years we have handled Alberta Coal, each year increasing the sales—no better proof of the good quality of the coal and the satisfactory service.

The Government of the Province of Alberta

IT is just 50 years ago this month since Alberta was made part of the Dominion under the name of Rupert's Land and the Northwest Territories. In the following month the Province of Manitoba was erected. In 1871 British Columbia was made a province and as recently as 1905 the gap between British Columbia and Manitoba was filled by the autonomous organization of the remaining prairie area into the Provinces of Saskatchewan and Alberta. The Province of Alberta is just 15 years old.

AREA.

Alberta is seven hundred and fifty miles from north to south and an average of about four hundred miles from east to west. It has an area of approximately one hundred and sixty million acres. Half of this is plough land without the need of reclamation. Only half of this has yet been alienated as homesteads, pre-emptions, railway, Hudson Bay, irrigation and school endowment. At present there are fifteen million acres of surveyed land for entry.

CLIMATE.

The province has an attractive climate. It is much more moderate than interior climates generally. Its winter season is subject to relaxations from steady cold—its summers are not excessively hot. The skies are clear and its chief precipitation period comes in the months of June and July and combined with the warmth makes a rapid growing season.

THE GREAT ALBERTA OAT CROP.

RESOURCES.

The resources of the province are as diversified as those of any province of the Dominion. Its agriculture includes ranching, grain farming, irrigation farming, dairying and pure bred stock raising. Its minerals consist chiefly of the useful sorts. It is estimated that the total amount of coal in the province is 1,059,975 million tons, and includes anthracite, semi-bituminous and lignite grades. The whole country shows oil seepages. The great interests of the world are acquiring leases and new depths in exploration will make Alberta one of the great oil producing fields of the world. Natural gas is playing an important part in the industrial development of the province. One hundred miles of tar sands two hundred feet thick are exposed along the Athabasca River. Salt beds of the same depth are found around Fort Smith. Placer gold in paying quantities is found on the principal streams of the province. The province has besides, important resources in timber, fish and furs.

AGRICULTURAL AREAS.

Southern Alberta is distinguished principally for grain growing, ranching and irrigation. Southern Alberta has the thousand-acre record in wheat production, with 54.3 bushels per acre. Three million acres of land are included in the properties of the irrigation enterprises of Southern Alberta and half of this area is actually irrigable. Irrigation means more and better crops, more kinds of crops and insurance for farmers. The ranches of Southern Alberta, which are now chiefly found in the foothills, are the most attractive properties of the kind in the Dominion of Canada.

Central Alberta is distinguished for mixed and special farming. It is the most closely settled part of the province and has a good deal of dairying and pure bred stock raising of the province.

Northern Alberta is developing rapidly. It is served by three railways to Peace River, Fort McMurray and St. Paul de Meis. This new agricultural area produced ten million bushels of grain in 1919. It is the chief homesteading area at present.

GOVERNMENT.

The government of the province is the same as that of the other provinces of the Dominion, except that along with Manitoba and Saskatchewan, the lands, mines, timbers and water powers have not been put into the hands of the province for close and active local development. Alberta has twelve members in the House of Commons and five in the Senate. The province has a well developed system of municipal government and organization is proceeding rapidly. There are now about two hundred municipal districts organized.

EDUCATION.

Alberta has a well organized system of education, consisting of elementary and secondary schools, a provincial university, denominational colleges, a technical institute, and a middle type system of agricultural schools. Rural schools are being organized into consolidations. Permanent teachers' residence are provided for in the legislation of the department and normal school students are assisted by loans.

ALBERTA BABY SHEEP

HOLSTEIN AT STONY PLAIN DEMONSTRATION FARM.
Seven Day's Milk Record 498.7 pounds, equivalent to 30.38 pounds of butter.

AGRICULTURAL ORGANIZATION.

Special attention is paid to assisting agriculture. A Dairy Commissioner promotes, by education, direction of manufacturing processes and selling services, the development of the dairy industry of the province. The total value of dairy products in 1919 was \$31,625,000.00. A Poultry Commissioner directs a general egg marketing service and also gives house-to-house instruction to poultry growers. The Seed Branch of the department attends to the seed grain distribution when necessary and promotes marketing of special seed grain surpluses to other parts of the Dominion and the United States. The government helps to finance the farmers through providing for co-operative municipal organizations and helping to guarantee loans. It operates a live Stock Encouragement Act by which groups of farmers may unite to secure loans with repayment guaranteed by the government for the purchase of cattle stock. A million and a half of money has been made available to settlers in this way. Draft horse breeding is being assisted by the purchase by the government of improved draft stallions. Selling services in live stock are promoted to the fullest extent by the co-operation of the Dominion and Provincial Departments of Agriculture in the encouragement of fairs and stock sales.

ALBERTA FOOD RESOURCES

The total value of farm products for 1919 is given below:

	Acres	Bushels	Yield per Acre	Price	Revenue
Spring wheat	4,241,904	23,935,221	8.00	\$1.83	\$62,101,459.92

Western Canada's Greatest Asset

HER UNDEVELOPED OIL FIELDS

THE necessity for fuel oil was never realized by the British Government so much before, as during the crisis just passed through—the fact that the control of the world's fuel supply was in foreign hands was brought right home and the absolute necessity of obtaining adequate fuel supply for the future is an imperative fact. *Where is that supply?* That was the next question. Russia? Hardly, for many years to come. Burma? Here the oil fields are already showing depletion; the same applies to Trinidad. Where then do indications point as being the largest probable reservoir of the world's future supply of this absolutely vital fuel? *Canada*, or rather *Western Canada*—or to localize more fully

Northern Alberta

Already oil experts from almost every oil producing country in the world have been quietly examining the stratagical formation of the huge beds of oil shales in our vast northlands, many have been the secret test holes put down, exhaustive has been the data gathered, examined, discussed and analysed; every test points to the great truth, the undeveloped oil fields of Northern Alberta stand unchallenged as Canada's greatest asset. The near future will see these great natural oil reserves tapped, developed and capitalized by *British Capital* in *British Interests* for the furtherance, maintenance and strengthening of the *British Empire*. Do not be fooled, canards may be spread, false reports circulated, but the truth will out, the facts will yet be known, that,

*Western Canada's Greatest Asset
Is Her Undeveloped Oil Fields*

The Canadian Manufacturers' Association

(Incorporated)

The Canadian Manufacturers' Association, the National Organization of the Manufacturers of Canada, will hold its Annual General Meeting at Vancouver, B.C., on June 7th, 8th, 9th and 10th next. In order to give some information in regard to the history, objects and organization of the Association the following statement is being published.

HISTORY OF THE ASSOCIATION

THOUGH the history of The Canadian Manufacturers' Association goes back as far as 1872, for many years it consisted of local organizations in two or three principal industrial centres and its activities were necessarily provincial, with the result that, in 1899, when it was launched as a national organization, its membership was only about 300. It was incorporated by Act of Parliament in 1902. By 1905 its membership had grown to 1,604; by 1910 to 2,450; by 1915 to 3,098, and the present membership is 4,100. From a few isolated groups with no common policy, the Association has developed into a national organization extending from coast to coast.

OBJECTS

According to the Constitution "the objects of the Association shall be to promote Canadian industries and to further the interests of Canadian manufacturers and exporters, and to render such services and assistance to the members of the Association, and to manufacturers and exporters generally, as the Association shall deem advisable from time to time."

While the Association has adhered constantly to these objects it has not confined its energies entirely to their pursuit. Through its president, its council, its committees and its members, and its general activities as an incorporated body, it has striven not only to promote and safeguard the interests of its members, but also to contribute in every possible way to the national welfare.

QUALIFICATIONS FOR MEMBERSHIP

Any individual, firm, partnership or corporation, carrying on in Canada, under his or its own name, a manufacturing business that gives employment in its mechanical department to not less than five employees, shall be deemed to be eligible for active membership.

GOVERNMENT OF THE ASSOCIATION

The government of the Association is thoroughly democratic and is based on the theory of responsible government. All members of the various governing bodies are elected. Any member is eligible for the position of president and any member can nominate whom he pleases for any office.

The organization of government is described briefly as follows:

1. Annual General Meeting. The annual general meeting called in June is the supreme governing body. Each member has one vote irrespective of the size of the firm he represents and all policies submitted at the annual general meeting are determined by open voting.

2. The Executive Council. The Executive Council is elected by ballot on the basis of one member of the Executive Council to every fifty members of the Association. The Council governs the Association between annual general meetings.

3. The Executive Committee. The Executive Committee is a small committee elected from the Executive Council, having functions similar to those exercised by a board of directors.

4. Standing Committees. The following Standing Committees are elected annually:

Transportation Committee	Membership Committee	Commercial Intelligence Committee
Tariff Committee	Insurance Committee	
Legislation Committee	Industrial Relations Committee	Publishing Committee
		Education Committee

These Committees supervise the work of departments bearing the same name and report to the Executive Council.

5. Officers. The Officers of the Association are:

President	Second Vice-President
First Vice-President	Treasurer

They are elected each year at the general meeting.

6. Staff. The salaried staff consists of a general manager, general secretary, department managers, secretaries and clerical assistants.

SPECIALIZED DEPARTMENTS

The Head Office of the Association is situated at 1404 Bank of Hamilton Building, Toronto. The Association maintains a number of specialized departments which furnish members with various services. These departments are described as follows:

1. Transportation Department. This department advises members on all matters affecting rail and water transportation, and also telegraph and telephone communication.

2. Tariff Department. This department advises members in regard to rulings, decisions and regulations of the Board of Customs, Orders in Council, entries, post entries, dump duties, refund, drawbacks, seizures, etc. It studies the tariffs of other countries in order to advise exporters in regard to foreign tariff rates and invoice requirements.

3. Insurance Department. This department gives expert advice on all matters pertaining to insurance. It also devotes special attention to the study of fire prevention.

4. Legal Department. This department studies Industrial and Commercial Law.

5. Commercial Intelligence Department. This department keeps up to date a list of all Canadian manufacturers and the articles which they make. It seeks to inform members of opportunities to sell goods, both at home and abroad, and also to furnish information where raw material may be bought.

6. Industrial Relations Department. This department studies questions relating to Industrial Relations between employers and employees such as welfare, industrial councils, wages, hours of work, and conditions of labor. The Association does not interfere in strikes or other labor disputes.

7. Trade Sections Department. Through this department problems of specific lines of trade are studied.

8. Publishing. The publishing department attends to the work of issuing all publications.

9. Education. The Association has always tried to improve the standard of education in the country especially that of technical education.

10. General. The Association encourages all kinds of research. At the present time special committees are dealing with such problems as the development of an adequate fuel supply in Canada, production, industrial and scientific research, and technical education.

DIVISIONS

For administrative purposes the Association is divided into five divisions.

1. Maritime (Nova Scotia, New Brunswick, and Prince Edward Island) Division office, Amherst, N.S.

2. Quebec (Quebec Province) Division office, 113 Board of Trade Building, Montreal.

3. Prairie (Manitoba, Saskatchewan, Alberta) Division office, 408 Avenue Block, Winnipeg.

4. Ontario (Province of Ontario) Division office, 1404 Bank of Hamilton Building, Toronto, Ont.

5. Pacific (British Columbia) Division office, 705 Board of Trade Building, Vancouver, B.C.

The Association also maintains an office in the Booth Building, Ottawa.

Workers employed in Canadian factories and their families and dependents number over two millions. The value of products manufactured in Canadian factories this year will be about four billion dollars.

THE DAIRY INDUSTRY!

IS one of the fundamental forces in the development of the Province of Alberta. Dairying is basic among the things which go to make an Agricultural Country great. Alberta is peculiarly well-fitted to excel in Dairy Farming; feed is usually abundant; climatic conditions are favourable; the home market is good and outside demand for dairy products is excellent. Given such conditions, the dairy industry lacks only effort to put it at the forefront of importance.

This effort has not been wanting; private enterprise and governmental care have combined to make dairying in Alberta a matter of steady, scientific growth. Quality of production has kept even pace with quantity; Alberta butter has become known for good volume of supply and superior quality.

Under the urge of dependable supply and the highest quality known to Canadian dairy trade, Alberta butter has penetrated eastward to the markets of continental Europe,

and westward to Japan. At home—in Canada—Alberta butter was awarded the first prize for excellence at Winnipeg in January of this year, with all Canada competing.

This is, shortly, the story of dairying in Alberta. The industry has made swift, sure, and smooth progress; it is going forward fast toward one of the very high places among the industries of Alberta. Its growth has benefited not only the people who are engaged directly in one form or another of dairying, but it has made strongly for the general prosperity and development of the province.

HOPES GREATER CO-OPERATION BETWEEN NATIONS

Dr. Chown Hopes for Better
Feeling Between Canada
and United States

Washington, June 3.—This hour that Canada and the United States will be drawn into deeper sympathy and closer co-operation "for the future safety of the world" was expressed Wednesday by Dr. Samuel B. Chown, general superintendent of the Methodist church in Canada, in a convention held at the American university here. There have been reports of ill-feeling between Canadians and Americans, he said, but the utter absence of preparation on either side of the border line against naval or military attack, he thought, is evidence of the mutual trust which should fill our hearts and underlie our national relations.

Dr. Chown said that Canada's chief duty was to play the role of interpreter between the United States and Great Britain. "We venture to think," he continued, "that 'little Johnnie Canada' understands the psychology of Uncle Sam and John Bull more fully than either of them understands the other."

Dr. Chown was introduced by William Jennings Bryan, who declared that the United States and Canada remained rivals in innumerable efforts to exact its example. The ideal is one thing that cannot be restrained by tariff walls or custom duties, he said.

PURE BRED STOCK SALE IS HELD AT SASKATOON

Prices Short at Opening But
Better Figures Are Expected
as Sale Proceeds

Saskatoon, June 3.—Prices were very short at the opening of the pure bred stock sale under the auspices of the Saskatchewan Cattle Breeders' association this morning. The high-bred bulls of the Aberdeen Angus breed, owned by W. J. F. Warren, of the University of Saskatchewan, and first prize senior yearling Aberdeen Angus bull owned by W. H. Turner of Lethbridge, and sold to W. H. Stewart of Lethbridge.

Officials of the sale are anticipating much better prices for the short horns which will be in the ring until late this afternoon. Championships were awarded at the opening of the sale to Enoch of Lethbridge, 21,487, open champion Angus bull to Hero of Sunnybrae 20, 23,652, females, open and Saskatchewan champion Lady Carson of 20, 7,592.

MEMBERS OF BOARD URGED TO ASSIST IN ENTERTAINING

Members of the board of trade are going to be busy on Friday and Saturday in about 250 visits to the Industrial Congress, which will be held in the city on those two days. Many of these men, with their wives will be paying their first visit to Edmonton and every citizen will want them to carry away a favorable impression of the capital of Alberta. A special request is made to all members of the local board of trade to turn out to help entertain the visitors. Those who do not drive cars are asked to be at the Memorial hotel at 2:45 Friday morning to receive their badges and to attend the opening session of the congress. W. J. TUDOR, President.

NEXT R.O.C. CONVENTION
For Arthur, Ont., June 2.—Peterborough, Ont., was chosen as the 121st convention place of the R.O.C. of Columbia, Ontario state council, now holding its session here.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year, thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are caused by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. To avoid any possibility of giving your child opium, or narcotics of any kind, keep *Castoria* in the house, and Save the Babies.

Castoria always bears the signature of

Overland Motor Cars

COMPLETELY BUILT IN CANADA BY CANADIANS FOR CANADIANS

WILLYS-OVERLAND Limited is a Canadian Company. Its product is practically all Canadian. Overland Motor Cars being not merely assembled but BUILT in the huge Toronto factory.

A year ago the company was changing its equipment from Airplane motor to Automobile; in September the first car was produced; by May an average production of nearly 50 cars a day was reached.

For this quantity production, a big organization had to be built up. Today 1500 men are on the pay-roll—and all of them proud of the new light Overland. The quality of steel and other material used in its construction is worthy of the highest type of Canadian workmanship. This Overland workmanship reflects the ideals of as able craftsmen as are to be found anywhere in the Automobile world.

Willys-Overland Limited

Toronto, Canada

Branches: Toronto, Montreal, Winnipeg, Regina

FROM the early days of the far flung open ranges, up to the present time of highly develop- ed mixed farming, the P. Burns Co., Ltd. has kept pace with progress. Establishing in the South in the pioneer period, the Company ultimately built our present modern plant in Edmonton in 1912. Here we are equipped with the most modern equipment to meet all the needs of the livestock in- dustry of Northern Alberta. Special departments deal with all the varied products of mixed farming—eggs, butter and poultry. The stockmen and farmers of Northern Alberta can develop to the limit the

bound less
opportunities it offers, with

the knowledge that through P. Burns Co., Ltd. they are in direct touch with the export trade to Europe and are thereby guaranteed the highest price for their stock that the market affords. The interests of the P. Burns Co., Ltd. Edmonton, are linked with the future of Northern Alberta, that future is summed up in the one word

REV. W. A. SMITH ELECTED PRESIDENT OF CONFERENCE

(Continued from Page Three.)

Wednesday. Encouraging reports were received from many districts in connection with the campaign and it was felt that the most forward movement had not only been made but that greater things were in store for all. While the financial returns had not been as complete or satisfactory as had been hoped for, yet many were prepared to the moral efforts to meet their obligations in the future and it was felt that with the improving conditions in the farming communities the financial objective would be reached. It was, therefore, recommended that the campaign be continued until March, 1921, to enable each district to have been able to achieve their objective of districts that have not taken this work up, to do so and continue their work and to report to headquarters before March 1921.

The use of the money and the press in depicting and printing "wet" jobs was deplored and it was suggested that

the conference take steps to offset this form of propaganda.

The association also recommended to conference that each district and sub-district start an active and energetic campaign to bring the financial of each district or sub-district into the treasury of the association, and that the Executive Council be authorized to pay a minimum salary of \$100.00 and that the Executive Council be authorized to pay a minimum salary of \$100.00 and that the Executive Council be authorized to pay a minimum salary of \$100.00.

The Atlantic conference of the Methodist church in session in the capital city by continuing to express their respect to the anniversary of King George V on the anniversary of June 3rd, and extending its hearty wishes for many happy returns.
